OUR CULTURE

Let's Work Together

OUR MISSION

Raj Technopack is a manufacturer of a diverse range of molding plastic packaging products that give utmost value and ease to our customers to choose desirable ones among extensive product range.

Our commitment is to lead the market with integrity, passion and excellence through innovation, quality and our profound experts.

OUR VISION

Our aim is to stand as a superior leading supplier & manufacturer of innovative molding plastic packaging solutions for delivering unparalleled products to various industries, not only in India but also overseas.

We see ourselves working in true partnership with our customers and suppliers with an unbreakable bond of reliability and transparency.

ABOUT US

DEDICATION AND COMMITMENT KEEPS US DRIVING SUCCESSFULLY.

Rajtechnopack comprises more than 27 years of packaging technology experience with a profound understanding of specific market requirements. In the course of our long history, we have frequently initiated patents, inventions and innovations that come from our own research and development laboratories as we always believe to provide most durable solutions to customers.

At Raj Technopack, the customer has one-stop access to all types of high-quality packaging. We are the expert supplier of industrial plastic packaging that provides you reliably safe handling for sensitive and dangerous goods. We promise you to avail assured quality products with reliable customer-oriented approach.

PIONEERING

MR. SATBIR GUPTA

Raj Technopack was founded in 1990 by Mr. Satbir Gupta in Shastri Nagar, North Delhi. Since then, we have been walking on uninterrupted journey of innovations, continuing to own the success in setting new industry standards. Raj Technopack pioneering work in providing a full-Range of packaging has maintained our position as a frontrunner in our industry and market.

In 2001, Raj Technopack shifted the business from Shastri nagar to Narela Indl Area Delhi. And, we started to produce plastic drums in 2005 and introduced most robust drum, SUMO, in 2007. Manufacturing liquid packaging in various different sizes in 2009 was another success story in victorious journey of Raj Technopack. And, Mr. Satbir Gupta & his sons have been continuing this victorious journey with one more factory established in Noida (U.P) in 2017.

R&D RESEARCH & DEVELOPMENT

It seems one of those pillars which strengthens Rajtechnopack and provides inspiration to innovate unparalleled technology, and also lets us to strategize for creating something unique for the customers. Completely featured with high-end equipment, our laboratory always stands to birth unparalleled creation for betterment of humankind.

Leading on this path, we do not only accomplish huge mission but also influence to plan enormously for the vision. Having this profound laboratory, we get supported and achieve the goals easily for desires and demands expected by our customers. Furthermore, we possess leading-edge technology and skilled technicians to complement our planning and innovation.

LIFE MEMBER

CERTIFICATIONS

Registered as a member in Indian institute of packaging, we assure our customers to obtain one of the finest, hygienic and eco-friendly plastic packaging in the market. We are also tagged as an authentic one by having the certification of International organization of standardization (ISO-9001).
